- (1) Prices shown are recommended retail prices by Volkswagen Ireland and include delivery and, where stated, an optional Service Plan. The Service Plan can be removed on request. Vehicle Registration Tax (VRT) and annual road tax are based on official World Harmonised Light Vehicle Test (WLTP) values and the rates applicable at the time of publication. The final VRT payable may change depending on vehicle specification. Please confirm final pricing and taxes with your authorised Volkswagen retailer.
- (2) Fuel consumption and CO₂ emissions shown are official WLTP values for standard production vehicles. Optional equipment and accessories may affect these values. Real world performance will vary depending on driving style, speed, weather, passengers, load and use of vehicle systems. For exact vehicle values, please configure your vehicle at volkswagen.ie.

Technology Package

Travel Assist ⁽³⁾

Travel Assist actively helps you stay in your lane. It also helps you to maintain a selected maximum speed and the optimum safe distance to the vehicle in front. In addition, you also benefit from predictive speed adjustment and cornering assistance: your vehicle can react to upcoming curves and roundabouts and adjust its speed safely.

Area View ⁽²⁾

Area View makes parking and maneuvering easier: 4 cameras show you curbs, parking markings and obstacles in a 360° view around your vehicle – clearly arranged on the infotainment display. Area View also shows you areas that are outside of your direct field of vision making it much easier to park within parking space lines.

Memory feature for Park Assist ⁽¹⁾

The Parking Assistant can optionally be expanded with the memory function and make difficult parking easier for you: Your vehicle can save individual parking processes and carry them out independently – ideal for garages. You only have to park or exit a parking space yourself once and save the process. The memory function can then repeat the process on its own and you only have to monitor it..

Premium Technology Package

Travel Assist

Travel Assist actively helps you stay in your lane. It also helps you to maintain a selected maximum speed and the optimum safe distance to the vehicle in front. In addition, you also benefit from predictive speed adjustment and cornering assistance: your vehicle can react to upcoming curves and roundabouts and adjust its speed safely.

Area View

Area View makes parking and maneuvering easier: 4 cameras show you curbs, parking markings and obstacles in a 360° view around your vehicle – clearly arranged on the infotainment display. Area View also shows you areas that are outside of your direct field of vision making it much easier to park within parking space lines.

LED HD Matrix Headlamps (1,3)

The HD matrix headlights can improve visibility at night with over 19,000 individually controllable LEDs per headlamp. Dynamic Light Assist increases driving safety – it enables the headlights to precisely block out other road users and signs from the high beam area.

Augmented Reality HUD

The head-up display projects driving data and navigation instructions onto the windscreen – and thus clearly visible in your field of vision.

15" Infotainment Upgrade (2)

Enjoy our largest available screen. Supporting our latest intuitive software with voice assistant "IDA" you can also operate your infotainment system with your voice. From now on, you can also access the artificial intelligence ChatGPT on the go – for information, research or simply for your entertainment.
